Listed equity investments

Shift to low-carbon indices

Carbon footprint -30%

Carbon footprint -50 %

Direct real estate investments

Fossil free heating and electricity

Carbon footprint -80%

Carbon neutrality

Carbon neutral portfolio

Measures

Listed equity investments

- We move away from generic index funds to low-carbon indices.
- We influence our investees to reduce their carbon footprint.
- We may exclude carbon intensive companies from our portfolio if our efforts to engage with them are unsuccessful.

Direct real estate investments

- We use only fossil free electricity and heating.
- We carry out energy efficiency projects in order to reduce the use of energy.
